DETAILED ACTION

Allowable Subject Matter

1. Claims 15-34 are allowed.
2. The following is an examiner's statement of reasons for allowance: None of the prior art alone or in combination discloses a converter circuit "wherein each switching group system has a first main switching group which is formed by a power semiconductor switch and by a separate capacitor which is connected to the power semiconductor switch, with the power semiconductor switch in the first main switching group being formed exclusively by a passive electronic component which cannot be driven and has a unidirectional current-flow direction, and each switching group system has at least one intermediate switching group, which is formed by two series-connected power semiconductor switches which can be driven and by a separate capacitor, with the intermediate switching group or one of the intermediate switching groups being connected to the first main switching group, and each switching group system has a second main switching group which is formed by a power semiconductor switch, with the power semiconductor switch in the second main switching group being formed exclusively by a passive electronic component which cannot be driven and has a unidirectional current-flow direction, and an intermediate switching group is connected to the second main switching group."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
